12. **Filipp**, Fabian Sebastian, Peasant, * Jamnay 22.09.1769, + Jamnay 23.11.1836

Died in House #145.

There is a second Fabian Filipp, born 1768.

- Marriage and death records of the "correct Fabian" point to a birthdate of 1769 (Fabian Sebastian is born 1769, Anton Fabian is born 1768)

- The family of Anton Fabian's father, Anton Filip, is from House no. 111 (he still owns the house 1797, as 1797 his son Johann marries, and as his parenthouse is given #111, and as his father Anton Filip)

- On 13.11.1796 the 28-year-old Anton Fabian marries, with house #111. Calculated back this gives a birth-year of 1768. This "Anton Filip" is "Anton Fabian Filipp" !!!

- There is no other Anton Filipp born who "could be it" in 1796 (in 1770 an Anton Filip is born the earliest again, and he is Joseph Anton Filip, I suspect he ran by "Joseph", not "Anton", independent of that in his case the timing would be 2 years off)

- So the one who marries 1795 is actually Fabian Sebastian Filipp!!!

16. **Katzer**, Anton, * before 1735

18. **Fischer**, Johann, * before 1735

20. **Walter**, Anton, * Ober-Heydisch before 1734
Probably the Anton, son of Michael Walter who marries on 22.02.1751 Anna Theresia, daughter of Tobias Nentwich from Rothfluss.
oo Heydisch 07.09.1761 Elisabeth Sündermann

21. **Sündermann**, Elisabeth, * Heydisch 13.09.1735
Sometimes called Maria Elisabeth, sometimes Anna Elisabeth. I am pretty sure it is the same person! Anna Elisabeth was the name at birth, so I assume Anna Elisabeth is correct. Probably she was called just Elisabeth or Lisa or Lisbeth and the priest on the marriage wrote the wrong second name. There is also no other Johann Sündermann from Heydisch in the fitting timeframe.
oo Heydisch 07.09.1761 Anton Walter

22. **Sündermann**, Franz Anton, * Ober-Lipka 05.02.1741
Bartholomäus and Eleonora Sündermann have two children named Franz, Franz Karl and Franz Anton.
Franz Karl dies 1741 at age 2, so Franz Anton is the correct assignment.

 - According to the Soullist 1651 in this time two Georg Prokopecz lived in Jamnay. One was born around 1643 (assuming the counting was around 1657 what usually is a good estimation), the other ca. 1629. A death record without age was found in 1685. The Anna Prokopecz, Widow of Georg who dies 1703 and is born around 1623 was probably the wife of this Georg Prokopecz. The Anna who married the ca. 1629 born Georg Prokopecz should be born around 1639 though. It is also unknown which of the two Georg Prokopecz was the father of Johann Prokopecz. If both had a wife named Anna (which is not impossible) both might be applicable. I assume though the one from ca. 1629 is the correct one. It is not possible to be sure of this though, at least not until landbooks of Jamnay are available.
